

PRESTRESSED BLADES

OUR PROFESSIONAL SERIES WILL PROVIDE YOU WITH THE BEST PERFORMANCE AND EASIEST CUTTING FOR ALL TYPES OF MATERIAL.

Prestressed blades are available in diameters ranging from 22" to 48". These specially formulated blades provide superior cutting performance in steel reinforced prestressed concrete.

Norton Pro Diamond's unique Silent Core gets the job done quickly and with considerably less noise than that of a regular diamond blade. Choose the Silent core for those noise sensitive projects.
